

The University of Houston – College of Technology and NASA are sponsoring the 2005 Lone Star FIRST LEGO League Tournament, which will be held at the UH Student Recreation and Wellness Center on **Saturday, December 3, 2005**. This robotics competition is designed to introduce middle school students to science, technology, engineering, and math in a fun, competitive, and educational environment.

We are in need of **volunteers** to help in all areas (i.e. research presentation and technical judging, scoring, setup/breakdown, and registration). Parents, teachers, high school and university student organizations, or any other interested individuals are encouraged to participate. Even if you have little or no experience, you are encouraged to volunteer! For those interested in volunteering, please complete the Volunteer Form at www.houstonrobotics.org/Form/FLLvolunteer.asp. If you are interested in judging, please make a note of this in the comment box at the bottom of the online form.

Robotics, Automation & Manufacturers can make a long-lasting impact on these kids by encouraging them to pursue a technical career. Send us a poster, brochure, or come to speak with the teams. For arrangements contact: Enrique Barbieri ebarbieri@uh.edu 713-743-4073 or Taresa Mikle tmmikle@central.uh.edu 713-743-1855
